Can this only be used with the PlayStation 4?

1 answer

Answer this Question

Reximus Prime · 4 months ago

It is required to be connected to a Playstation 4 console. However, it is possible to connect it to a Playstation 4 AND another video device (Xbox, Wii, Roku, etc.) and view 2D video through the headset from that other device. VR games and content, as well as 3D are only available through the use of a PS4.

Brian · 4 months ago

Is that a newer version psvr

1 answer

Answer this Question

Reximus Prime · 4 months ago

It is a newer version, including the ability to pass-through HDR content to a 4K TV from the PS4. It also has some redesigned placement for connections and headphones.

However, the display and motion tracking is the same from the previous headset.

Ryan · 4 months ago

Is this the new model headset?

1 answer

Answer this Question

Reximus Prime · 4 months ago

Yes, This model that includes Doom VFR... as well as the bundle that includes Skyrim VR are both the updated headset with HDR pass-through and other minor redesigned features. The cheaper Gran Turismo Bundle is the older headset.

fymanstu · 4 months ago

Does this come with 2 motion controllers or not. Doesn't appear too but the one description says it does. What is the answer?

1 answer

Answer this Question

Reximus Prime · 4 months ago

It does not. It includes the Headset, Camera, and the Doom VFR game. The Move controllers are available separately.
